## ABOUT

I am a university student studying at Qatar University with a passion for creating and designing things. Knowledgeable in a range of different subjects, from full stack web development, to mobile and desktop apps and game development. Able to work proficiently on independent projects, as well as thrive in team environments.

## EXPERIENCE

### UI DESIGN

Loqater | Nov 2021 (Contract)

- Redesigned their landing page and item found page
- Helped develop their style and design scheme
- Photoshopped a few images for use on the website

### COURT KICKS APPLICATION

Court Kicks | Sep 2021

- First mobile application, created with react native (work in progress)
- Helps people all around Qatar book courts and look for people to play with.

### APA FORMATTER WEBSITE

Personal | Sep 2021

- Second website created
- Used to format essays as part of the ENG 007 course at QU

### PORTFOLIO WEBSITE

Personal | Aug 2021

- First website created on my own and with the react framework
- Used to document my previous projects and increase digital coverage.

### FULL STACK DEVELOPER

Malvor | Jul 2021 - Aug 2021

- Implementing a WYSIWYG editor for a more in depth data entry experience
- Using Elasticsearch to filter for orders by location
- Doing a complete overhaul of the product category system
- Improving the product search page
- Discovering and implementing new and more efficient ways of inputting data

### DATA ENTRY OPERATOR INTERN

Malvor | Jun 2021 - Aug 2021

- Helped develop the company's inventory of products and keep things up to date
- Worked on a desktop app that streamlines this process on the side that helped me land a full stack position at the same company
